

For Immediate Release

The letter “B” ovine tag will soon be available

Longueuil, November 20, 2013 – There’s only a few weeks left for lamb producers to order the letter “A” (2013) ovine tags distributed by Agri-Traçabilité Québec (ATQ).

The production of tags with the letter for the current year will cease at the beginning of December. Sheep producers have until **December 6** to order and pay for tags with these marking for any lambs born from now until the end of December 2013.

As of **Monday, December 9**, the letter “A” ovine tags will no longer be available and will be replaced by letter “B” tags for lambs born in January 2014 onwards.

It should be noted that a period of two (2) weeks is necessary from the moment a payment is received at ATQ for the set of tags to be delivered at the farm.
