

## NEWS RELEASE For Immediate Release

### THE LETTER “E” OVINE TAG WILL SOON BE AVAILABLE

**Longueuil, November 11, 2016** – There’s only a few weeks left for lamb producers to order the letter “D” (2016) ovine tags distributed by Agri-Traçabilité Québec (ATQ).

The production of tags with the letter for the current year will cease at the beginning of December. Sheep producers have until **December 2** to order and pay for tags with these marking for any lambs born from now until the end of December 2016.

As of **Monday, December 5**, the letter “D” ovine tags will no longer be available and will be replaced by letter “E” tags for lambs born in January 2017 onwards.

It should be noted that a period of two (2) weeks is necessary from the moment a payment is received at ATQ for the set of tags to be delivered at the farm.
