

**PRESS RELEASE**  
**For immediate distribution**

**THE LETTER “F” OVINE TAG WILL SOON BE AVAILABLE**

**Longueuil, November 10, 2017** – There’s only a few weeks left for lamb producers to order the letter “E” (2017) ovine tags distributed by Agri-Traçabilité Québec (ATQ).

The production of tags with the letter for the current year will cease at the beginning of December. Sheep producers have until **December 1** to order and pay for tags with these marking for any lambs born from now until the end of December 2017.

As of **Monday, December 4**, the letter “E” ovine tags will no longer be available and will be replaced by letter “F” tags for lambs born in January 2018 onwards.

It should be noted that a period of two (2) weeks is necessary from the moment a payment is received at ATQ for the set of tags to be delivered at the farm.
